

# Siena

## Single rail for curved stairs

Our Siena stairlift combines fresh, contemporary styling with the best in stairlift engineering. The simple contours along with a range of classic and contemporary upholstery options make the Siena a smart and practical addition to any home.

Our single tube rail can be the ideal choice when space is limited at the bottom of the stairs. Like all our stairlifts the chair folds away neatly so you always have the option to use the stairs if and when you want to.

- ✓ Our stairlifts are designed to leave plenty of room for others to use the staircase
- ✓ Contrary to popular belief our rails are fitted to the staircase and not to the wall - ensuring minimal mess and bother
- ✓ Installation is quick and easy

## Key features

- ✓ **Arm isolation** - the armrest closest to the ground floor must be fully lowered for the stairlift to operate
- ✓ **Seat to footrest fold** - to neatly fold your stairlift away when not in use
- ✓ **Easy-to-use seatbelt** - can be easily fastened even with one hand
- ✓ **Safety edges** - to detect obstructions on your staircase
- ✓ **Easy-to-use controls** - choose between paddle or rudder style type controls
- ✓ **Seat height** - can be set to the most comfortable height at installation
- ✓ **Manual or powered swivel seat options** - making it simpler to get off the chair onto the landing

## Upholstery colours

### Vinyl

Walnut

Ivory

Pine

Cranberry

Midnight

*The pictures within our brochures are for guidance only. Although we have tried to display the colours accurately, we cannot guarantee that the colours in the pictures accurately reflect the colour of the actual stairlifts. Your stairlift may be slightly different from these pictures. Please note that our modular rail will fit differently on all staircases and may not appear as it does in the imagery within our marketing collateral. If you have any specific queries your sales consultant will be happy to advise you.*
