

# Siena

Single rail for curved stairs

**Stannah**

# Siena: The elegant solution.

Our Siena stairlift combines fresh, contemporary styling with the best in stairlift engineering. The simple contours along with a range of classic and contemporary upholstery options make the Siena a smart and practical addition to any home.

Our single tube rail is the ideal choice when space is limited at the bottom of the stairs. Like all our stairlifts the chair folds away neatly so you always have the option to use the stairs when you want to.

## Key features

**Arm isolation** - the armrest closest to the ground floor must be fully lowered for the stairlift to operate

**Seat to footrest fold** - neatly folds your stairlift away when not in use

**Easy-to-use seatbelt** - can be easily fastened even with one hand

**Safety edges** - to detect obstructions on your staircase

**Easy-to-use controls** - choose between paddle or rudder style type controls

**Seat height** - can be set to the most comfortable height at installation

**Manual or powered swivel seat options** - making it simpler to get off the chair onto the landing

- Our stairlifts are designed to leave plenty of room for others to use the staircase
- Contrary to popular belief our rails are fitted to the staircase and not to the wall - ensuring minimal mess and bother
- Installation is quick and easy

You can truly make your stairlift unique by selecting one of our many upholstery options. Along with our standard offering (shown below), you can choose from our wide range of collections, including the Agua Fusion Collection with its contemporary diamond pattern, our luxurious velvety fabric range and our stylish yet practical vinyl/fabric combinations.
